

LAWN DAMAGE LIST

The Brewer Public Works Department keeps a record of calls from Brewer citizens for lawn damage caused by City plows. If your lawn has been damaged by City plow equipment this winter please contact the Brewer Public Works Department (989-7800) before the end of April to be put on the list. The Public Works Department will do the need repairs as soon as possible. The City greatly appreciates the many residents that make the repairs themselves to help out but if the repair is too big or you can't fix it yourself for some other reason please call.
